

# FAR603

# FORTUNE TIRES

## The Fortune FAR603 successfully obtained TÜV Mark certification.

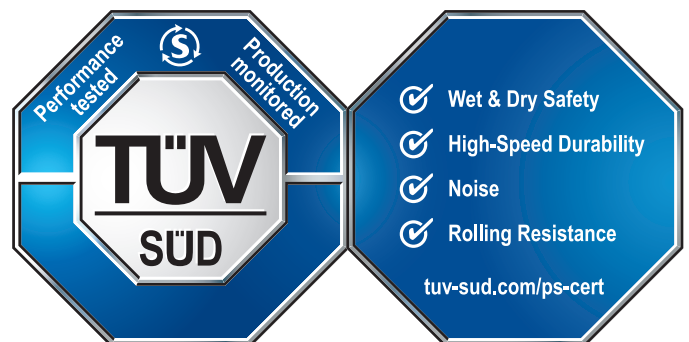

After undergoing extensive and demanding tests, the FAR603 has received the prestigious TÜV SÜD Test Mark. This signifies that the FAR603 is in full compliance with the high requirements of TÜV SÜD for four specifically tested product characteristics:

**Robustness**  
**Wet braking**  
**Rolling resistance**  
**Pass by noise**

The highly respected German TÜV Test Mark stands for safety, reliability and neutrality and is a well-known quality brand, accompanied by the strong claim:

### Add value. Inspire trust.

Only companies that have subjected their products and production facilities to voluntary testing on the basis of the TÜV testing and certification regulations receive a TÜV SÜD Product Service GmbH Test Mark. The inspection of the production facilities certifies that the production quality in the manufacturing plant is consistently high.

Designed to perform in severe snow and cold weather conditions.

# FAR603

**FORTUNE**  
TIRES

REGIONAL / LONG HAUL HYBRID

 All Position

The FAR603 is a high-mileage, all-position tyre for use on steering-axles and trailers in both regional and highway application, that offers great stability and traction in all weather conditions.

## Performance Ratings:

### MILEAGE POTENTIAL

### ALL SEASON TRACTION

### DAMAGE RESISTANCE

The FAR603 provides precise handling, good lateral grip and therefore short braking distances.  
Its optimized rolling resistance allows for improved fuel economy.
