An adapted range for each usage

X[®] LINE

Long distance journeys, motorways and major national roads

X[®] MULTI

Short and long-distance journeys on all types of roads

X[®] MULTI ENERGY™

Maximised energy efficiency with high level of mileage

X[®] MULTI HD

Maximised robustness for versatile usage

X[®] MULTI GRIP

Safety & mobility in severe winter conditions

X[®] WORKS

Mixed use on roads, worksites and quarries

X[®] WORKS HD

Robustness for mixed on road and worksite usage

X[®] FORCE

Specialised, civil or military vehicles mostly driven on off-road surfaces

X[®] COACH

People transportation, short and long distances, on all types of roads

X[®] INCITY

Urban and suburban driving

AGILIS

Van and commercial light truck tyre

Bring the adequate and relevant value to the customer journey

MICHELIN X[®] LINE ENERGY[™]

PRODUCTS

LONG HAUL

DESIGNED FOR LONG DISTANCE JOURNEYS, MOTORWAYS AND NATIONAL ROADS

MICHELIN
X® Line Energy™ 3
- serie 60 Z/D

Payload or volume,
you don't have to choose,
we have both!

MICHELIN
X® Line Energy™
F/Z/Z2/D/D2/T (22.5)

Save even more fuel
without compromising on
mileage.

MICHELIN
X® Line Energy™ T
(17.5 & 19.5)

With MICHELIN X® Line Energy™ T
excellent robustness, your driver
carry any kind of payload
with peace of mind.

MICHELIN X[®] Line Energy[™] F/Z/Z2/D/D2/T (22.5)

Dedicated to the demands of general long-distance highway goods transportation, MICHELIN X[®] Line Energy[™] will generate real savings for the business.

 X[®] LINE ENERGY[™]

LOAD OPTIMISATION

Benefit from a large payload

ECO-TRANSITION

Reduce your carbon footprint thanks to this range specifically designed to reduce CO₂ emissions

SAFETY & QUALITY

Drive with peace of mind whatever the weather conditions thanks to excellent grip

COST CONTROL

Save even more fuel without compromising on mileage

UPTIME

Reduce unexpected downtime

COMPLIANCE & REGULATION

MICHELIN tyres are designed to offer optimum balance, especially low rolling resistance, which reduces CO₂ emissions

MICHELIN

MICHELIN X[®] Line Energy[™] T (17.5 & 19.5)

Our tyres offer excellent rolling resistance for substantial fuel savings on the low-loader trailers over long distances.

LOAD OPTIMISATION

Optimise the load carried by the low-loader trailers thanks to this extremely robust tyre

ECO-TRANSITION

Reduce carbon footprint thanks to this range specifically designed to reduce CO₂ emissions

SAFETY & QUALITY

Drive with peace of mind whatever the weather conditions thanks to optimum grip

COST CONTROL

Save even more fuel without compromising on mileage

UPTIME

Reduce the vehicle downtime thanks to excellent robustness and high resistance to damage

COMPLIANCE & REGULATION

MICHELIN tyres are designed to offer optimum balance, especially low rolling resistance, which reduces CO₂ emissions

MICHELIN X[®] Line Energy[™] Z3/D3

- series 60

Intended for long-distance transportation on highways or national roads, MICHELIN X[®] LINE ENERGY[™] 3 is the choice you need to combine real savings and reliability for the fleet.

NEW
315/60 R 22.5 Z3
295/60 R 22.5 D3

LOAD OPTIMISATION

Benefit from a large payload

ECO-TRANSITION

Reduce carbon footprint thanks to this range designed and optimised specifically, to reduce CO₂ emissions

SAFETY & QUALITY

Drive with complete peace of mind whatever the weather conditions thanks to excellent grip

COST CONTROL

Save fuel while maintaining optimum reliability

UPTIME

Thanks to tread robustness on the steer axle. Grip and traction throughout the life of the tyre thanks to the REGENION technology

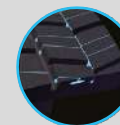

COMPLIANCE & REGULATION

Reduce your environmental impact with MICHELIN tyres, designed to meet both the needs of loaders and ever stricter regulations

265/70 R 19.5

LOAD OPTIMISATION

Benefit from a large payload

ECO-TRANSITION

The right balance between performance and environmental impact

SAFETY & QUALITY

Drive safely in the city, even on wet roads and during emergency braking

COST CONTROL

Reduce operating costs thanks to excellent mileage

UPTIME

Minimise the vehicle downtime thanks to exceptional mileage and grip

COMPLIANCE & REGULATION

Michelin tyres are designed to offer optimum balance, especially low rolling resistance, which reduces CO₂ emissions

 **X® MULTI**

MICHELIN

MICHELIN X[®] Multi HD Z/D

Reinforced **robustness** and versatility.

MICHELIN X[®] Multi HD tyres offer an excellent balance between performance and robustness. They can be used right down to the wear indicator, without worrying about detachments or risk for transported goods!

LOAD OPTIMISATION

Benefit from a large payload

ECO-TRANSITION

The right balance between mileage and environmental impact

SAFETY & QUALITY

Drive with peace of mind, even in tough road conditions

COST CONTROL

Optimise operating costs thanks to excellent mileage in tough road conditions

UPTIME

Avoid any unexpected downtime thanks to outstanding impact resistance and optimum use of tyres down to the wear indicator

COMPLIANCE & REGULATION

MICHELIN tyres are designed to offer optimum balance, especially low rolling resistance, which reduces CO₂ emissions

MICHELIN X[®] Multi Grip Z/D

 X[®] MULTI GRIP

With MICHELIN X[®] Multi Grip tyres, keep control in difficult winter conditions down to the wear limit to ensure you deliver on time

LOAD OPTIMISATION

Benefit from a large payload

ECO-TRANSITION

The right balance between mileage and environmental impact

SAFETY & QUALITY

Drive safely in difficult winter conditions

COST CONTROL

Reduce operating costs thanks to a significant increase in mileage on the drive and steering axles

UPTIME

Limit the downtime thanks to outstanding winter grip

COMPLIANCE & REGULATION

MICHELIN tyres are designed to offer optimum balance, especially low rolling resistance, which reduces CO₂ emissions

BFGOODRICH ROUTE CONTROL 2

HEAVY TRUCK

Running the long haul means putting in the hours to get the job done: drive in, turn around, drive out. BFGoodrich's new Route Control 2 is the tyre you can count on for all loads on all roads, whatever the weather⁽¹⁾.

ROUTE CONTROL S2

ROUTE CONTROL D2

BRING ON THE DISTANCE

Designed for up to 20% more kilometers, so you just keep on going. Plus there's a bigger surface area in contact with the road⁽²⁾, and the treads are deeper. Grip that won't slip !

I'M NOT AFRAID OF BIG, BAD WEATHER

M+S and 3PMSF tyres on your rig mean you stay in control.

GO ON, LOAD IT ON

You can carry bigger loads⁽³⁾, for bigger challenges day in, day out.

CASH IN ON MY CASINGS

It's been proven how tough BFGoodrich® casings are⁽⁴⁾, which means you retread and cut costs.

Mud, sand, off-road tracks.
We know it is all about 4x4. And we know trucks are also concerned and should not be left aside. Professionals need to be 100% confident in their tyres in every situation. We have made sure of this for the past 50 years in the USA.
Now we bring it to Europe, with the new Cross Control 2.
